

vallorbe swiss® range of farriery tools

912 FARRIER RASP

Ref.	L = " / mm
RA912-14	14" / 350 mm

In a sturdy 5-piece box. Each rasp is packed in an individual sleeve

SPIRIT FARRIER RASP

Ref.	L = " / mm
RA920-14	14" / 350 mm

Item packed in a individual sleeve

FLAT FILES FOR SHARPENING HOOF KNIVES

Ref.	L = " / mm
LC2251-6	6" / 150 mm
LC2251-8	8" / 200 mm
LC2260-6	6" / 150 mm

Items packed in a individual pouch

ROUND FILES FOR SHARPENING HOOF KNIVES

Ref.	L = " / mm	Ø = " / mm
LC10004-03-18	8" / 200 mm	1/8" / 3.2 mm
LC10004-03-532	8" / 200 mm	5/32" / 4.0 mm
LC10004-03-316	8" / 200 mm	3/16" / 4.8 mm
LC10004-03-732	8" / 200 mm	7/32" / 5.5 mm

Items packed in a 3-piece pouch

FLAT FILE WITH 1 SINGLE CUT SIDE AND 1 DOUBLE CUT SIDE

Ref.	L = " / mm
LQ5060-8	8" / 200 mm

Item packed in a individual pouch

«WOODY» HANDLE

Ref.	L = mm
AL340	100 mm

for LC10004

SCREW-ON «CROCODILE» HANDLE

Ref.	Ref.	L = mm
AL410-BLEU*		105 mm
AL510-BLEU**		105 mm
AL710-BLEU***	AL710-ROUGE***	131 mm

*for LC2251-6 and LC2260-6 **for LC2251-8 ***for RA912-14 and RA920-14

NEW FINISH SIDE

SWISS MADE
QUALITY
HORSE RASPS

FOR THE BEST IN HORSE CARE...

...AND TO INCREASE YOUR PROFITABILITY

ORIGINAL SWISS QUALITY SINCE 1899

www.vallorbe.com

The **V-sharp** technology has been developed by **vallorbe swiss**®. Our process enables to sharpen each tooth, both **on the rough side and on the finish side**.

Thus, **V-sharp** allows to put on our rasp 912 the last finishing touches of excellence, particularly in meanings of:

- **an increased aggressiveness**. The rasp doesn't slip, whatever the hoof is
- **removed material increased by 75% at least**.

For a clean and quick hoof finish

The new finish side of our rasp 912 improves the already famous and well-known advantages of this tool:

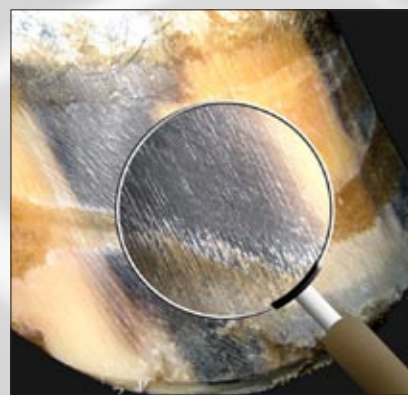

- **high performance rasp side**
- **long lasting effect, almost up to twice time**
- **does not clog**
- **quality consistency, for each box and each batch**.

This new finish side benefits from:

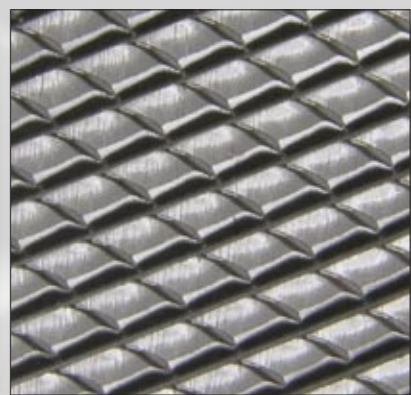

- **a deeper double cut**
- **an optimised tooth geometry**
- **the V-sharp technology**.

The combination of these parameters have definitely improved:

- **the aggressiveness** → the file removes more material
- **the surface finish** on the hoof → fine, clean, smooth aspect.

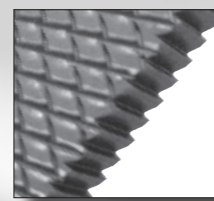

Perfect surface finish (doesn't leave marks)

New finish side

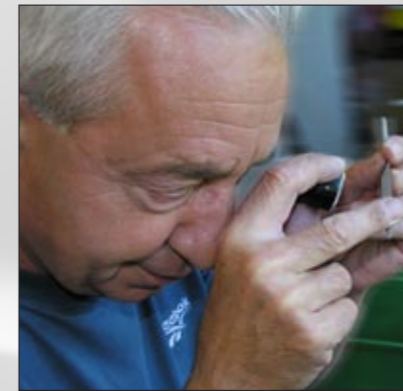

Sharp edges

The quality label

As in the case of **precision files**, the rasps are made of top quality steel which gives the product both **durability** and **consistency**.

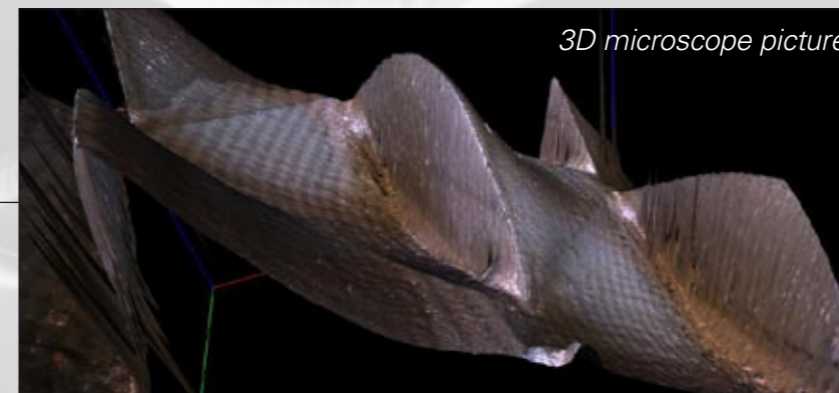

Precision file process inspection

Farrier rasp process inspection

Throughout the manufacturing process, the rasps are subjected to many checks: teeth geometry, cutting height, bite, hardness, etc. The quality assurance control system applied by **vallorbe swiss**® ensures that the quality of all our products remains constant.

Highly sharpened teeth

3D microscope picture

With a standard width of 45 mm, this rasp features more than 500 teeth sharpened by the **V-sharp** technology. Each rasp stroke becomes more efficient and makes the farrier's work much easier.

100% Swiss made

Manufacturing files and rasps has been a long **tradition** in the small town of Vallorbe since the 17th century. In **1899** the three most important files manufacturers joined their forces and founded the *Usines Metallurgiques de Vallorbe SA*, mainly known under the brand **vallorbe swiss**®.
