

## vallorbe swiss® range of farriery tools

### SPiRiT FARRIER RASP

Ref.	L = " / mm
RA920-14	14" / 350 mm

Item packed in a individual sleeve

### 912 FARRIER RASP

Ref.	L = " / mm
RA912-14	14" / 350 mm

In a sturdy 5-piece box. Each rasp is packed in an individual sleeve

### FLAT FILES FOR SHARPENING HOOF KNIVES

Ref.	L = " / mm
LC2251-6	6" / 150 mm
LC2251-8	8" / 200 mm
LC2260-6	6" / 150 mm

Items packed in a individual pouch

### ROUND FILES FOR SHARPENING HOOF KNIVES

Ref.	L = " / mm	Ø = " / mm
LC10004-03-18	8" / 200 mm	1/8" / 3.2 mm
LC10004-03-532	8" / 200 mm	5/32" / 4.0 mm
LC10004-03-316	8" / 200 mm	3/16" / 4.8 mm
LC10004-03-732	8" / 200 mm	7/32" / 5.5 mm

Items packed in a 3-piece pouch

### FLAT FILE WITH 1 SINGLE CUT SIDE AND 1 DOUBLE CUT SIDE

Ref.	L = " / mm
LQ5060-8	8" / 200 mm

Item packed in a individual pouch

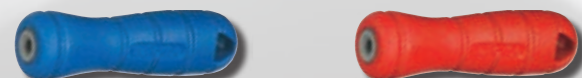

### «WOODY» HANDLE

Ref.	L = mm
AL340	100 mm

for LC10004

### SCREW-ON «CROCODILE» HANDLE

Ref.	Ref.	L = mm
AL410-BLEU*		105 mm
AL510-BLEU**		105 mm
AL710-BLEU***	AL710-ROUGE***	131 mm

\*for LC2251-6 and LC2260-6 \*\*for LC2251-8 \*\*\*for RA912-14 and RA920-14

PUB165.1/GB - 09.2009

Rasp packaging:  
Each rasp is packed in an individual cardboard sleeve.  
Five rasps per box.

# spirit

It is experience and know-how in manufacturing files and rasps for more than a century that motivates **vallorbe swiss**® to keep creating innovative tools. It is in that spirit that the Swiss manufacturer introduces the **Spirit**, a new type of farrier rasp with a revolutionary finish side that offers three distinct benefits:

- Will remove up to twice as much hoof as a « traditional » rasp
- The finish surface will be perfectly clean and smooth
- Minimum cutting energy is needed in comparison to a « traditional » rasp.

The **Spirit** rasp is the first example of the **vallorbe swiss**® technological inspiration and demonstrates the company's commitment to expanding its range. The goal is to make farriers' lives easier and their performance yet more effective.

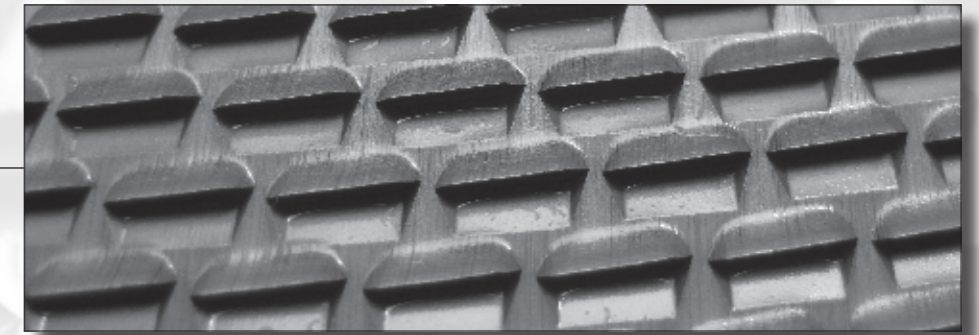

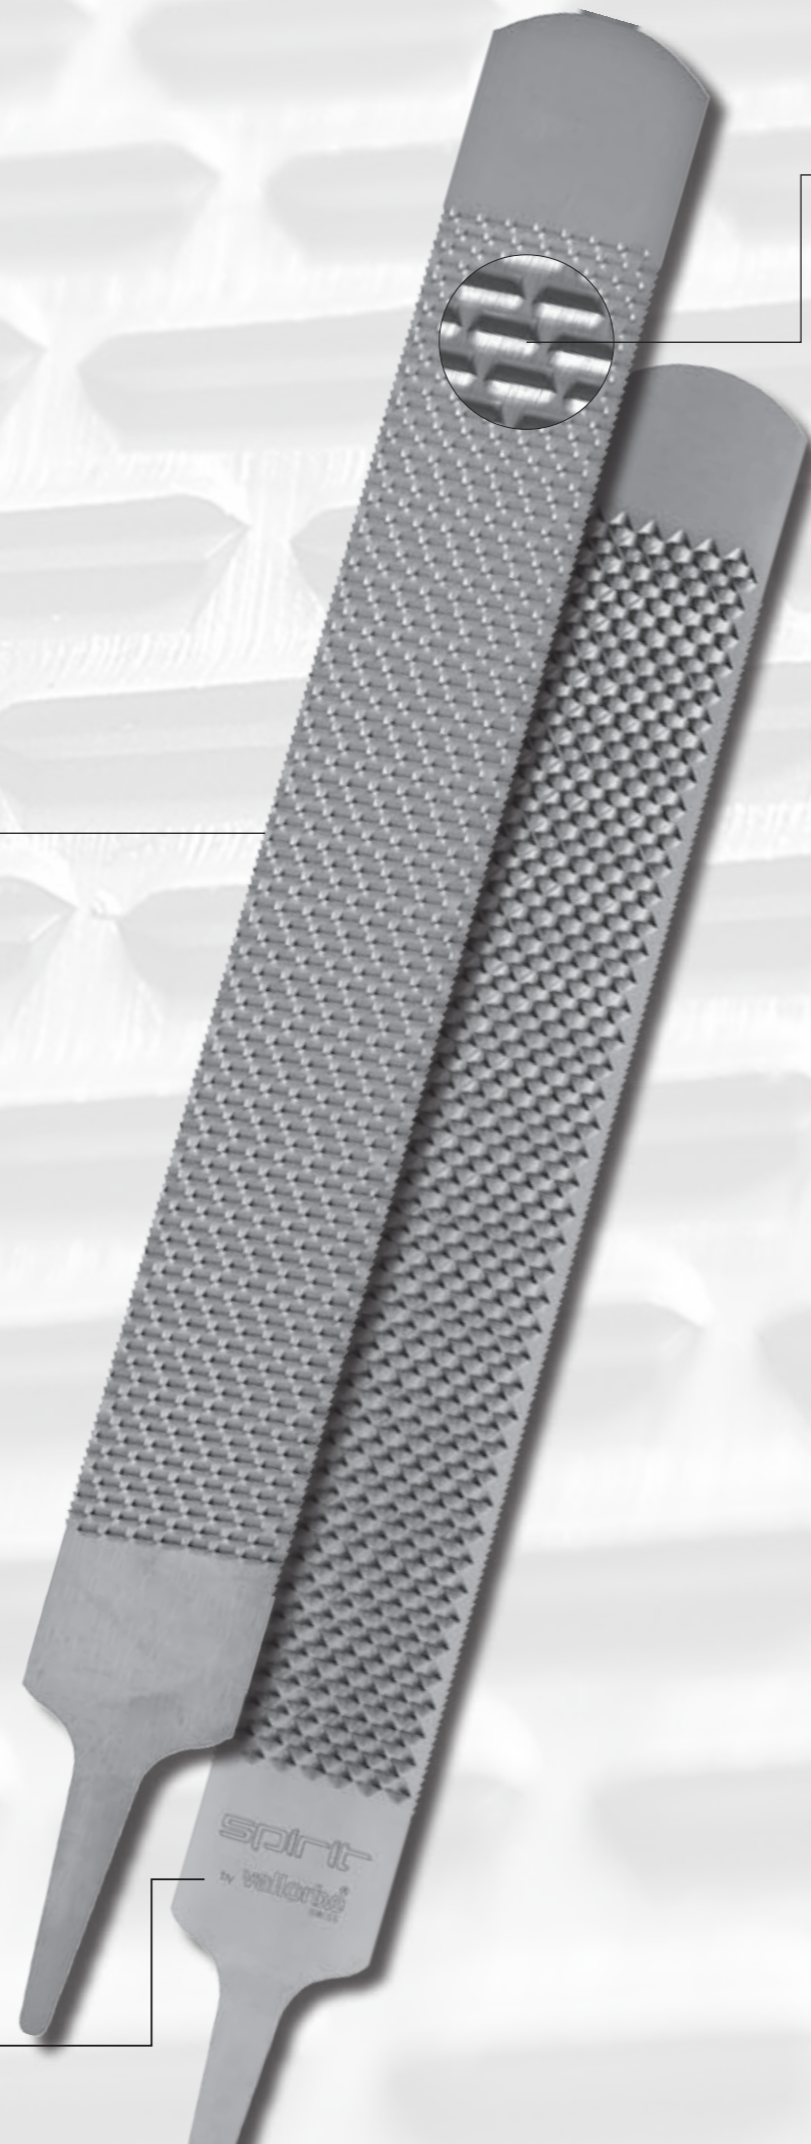

## Sharp edges

## The quality label

Manufactured of high carbon steel, farriers have reported that the **Spirit** rasp lasts **two to three times as long** as its competitors.

Throughout the manufacturing process, the rasps are subjected to a number of checks: teeth geometry, cutting height, bite, hardness etc. The **vallorbe swiss**® Quality Control system ensures that the quality of all our products remains consistent.

## Highly sharpened teeth

The finish side, or file side of the **Spirit** rasp is a standard width of 45 mm and features 672 teeth sharpened with the **V-Sharp** technology. Each file stroke requires less energy and thereby makes the farriers work much easier.

The **V-Sharp** technology allows in the manufacturing process to put an excellent finishing touch on the rasp. The process **increases aggressiveness** and prevents any slippage no matter how hard the hoof may be.
