SWISS

Glardon[®] beading tools

APPLICATION NOTE

A beading tool of exception, made by vallorbe swiss®

This product offers unique benefits such as:

- **Excellent finish and appearance with a high-gloss and polished calotte**
- **Perfect shape adapted for every beading work**
- **Superior wear resistance and long durability**
- ***Glardon*® brand, quality guarantee**

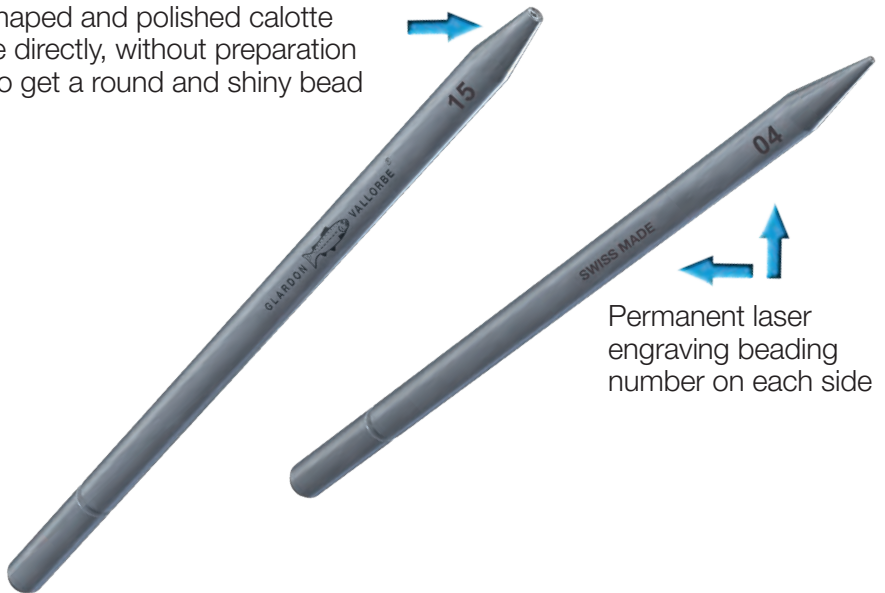

Beading tools are indispensable for gem-setters who are using them to give a well-shaped bead when setting gemstones on a jewel. *Vallorbe* has developed this tool per excellence for you. It is a complement to our *Glardon®* gravers.

With its extensive experience and technological know-how in the jewellery tooling, *Vallorbe* is bringing on the market a remarkable beading tool, Swiss Made and manufactured in our production site.

- High quality chromium steel offering unique hardness (64-66 HRC)
- Long durability
- Available in wide size range: from 00 to 22

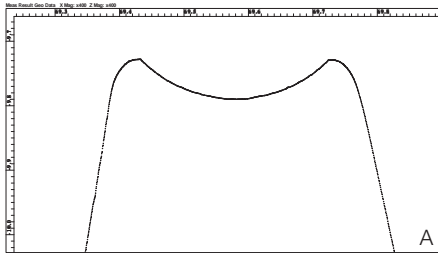

Well shaped and polished calotte
Usable directly, without preparation
Easy to get a round and shiny bead

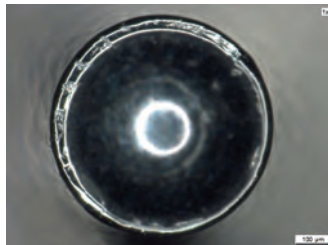

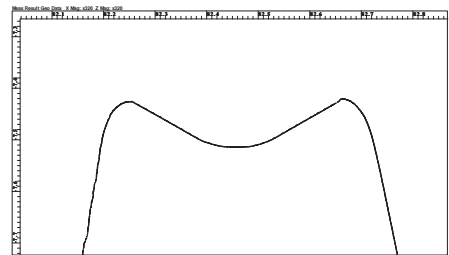

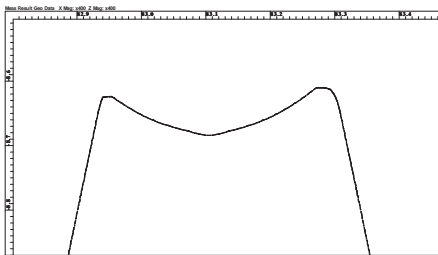

The *Glardon*® beading tool has been designed to satisfy the most demanding users. Its round calotte (A) allows the users to get a perfectly round and shiny bead. The tool offers a regular and fine edge with a soft radius (A and B) to go very close to the stones, without risking to squeeze metal between stones and beads. Our polishing process guarantees clean edges without burrs (B).
