KNOW-HOW

Based in Vallorbe, at Usines Métallurgiques de Vallorbe (UMV) we invent, design, develop and manufacture high-quality innovative products for industrial and artisanal applications.

vallorbe swiss® has a team of 260 highly qualified experts with unrivalled know-how and supplies professionals in areas such as jewellery, watchmaking, the precision industry, forestry and wood-working trades.

QUALITY

The criteria for our production – which our customers rely on – are absolute precision, meticulous attention to detail and rigour. Throughout the manufacturing process, our tools undergo systematic checks on the geometry of teeth, the height of the cut, the grinding capability and hardness; these checks guarantee the consistently high quality of our products.

The concept of quality is not limited to the technical quality of the product. It also includes the structure and services offered by Usines Métallurgiques de Vallorbe.

Obtaining ISO 9001 certification is not a requirement for us, but it is a standard that we willingly set ourselves.

We open the doors of our laboratory to companies looking to benefit from our expertise.

Our laboratories are equipped with state-of-the-art technological equipment enabling us to offer a variety of services, from metallographic tests to improving your manufacturing processes.

Do you want to develop an idea or resolve a problem?

At vallorbe swiss®, we are on hand to innovate, design and develop to realise your project.

Our engineers will help you develop customised tools adapted to your specific requirements.

INNOVATION

- To meet our customers' needs at vallorbe swiss® we :
- Innovate by creating new products with enhanced functions
 - Adapt to new mechanised and automated production techniques
 - Take the environment into account in our product design and manufacture

PCS-800100
