

# Filon

## Precision tool for regenerating screw threads

The Filon by Vallorbe, patented hand tool, goes everywhere where taps and thread cannot go: right or left hand thread, tapered or cylindrical parts. It prevents long and costly disassembly and downtime.

- This tool makes the inner or outer threads as good as new. It can also be used as a gage to identify a thread or pitch.
- Easy to use and accurate, this filon will help you save money and raw materials.
- It is indispensable in the following fields: mechanics, aviation, automobile, bicycles, motorcycles, machine tools, plumbing, heating, etc.

Available in 5 different types of screw threads:

- ISO
- Gaz (B.G.S)
- International (SI)
- UNF - UNC
- Withworth (WW)
