V | OAK

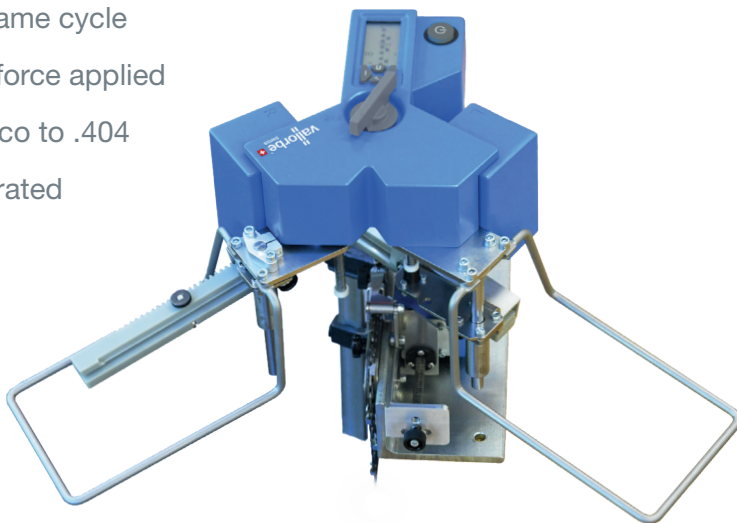

Automatic saw chain sharpener

REVOLUTIONARY SHARPENING SOLUTION FOR PROFESSIONALS

Based on a proven technique, as close as possible to the logger's daily reality, the V | OAK uses round and flat high-quality *Vallorbe*[®] files for a highly precise sharpening.

MAIN FEATURES

- Automatic sharpening process for left and right cutters
- Cutter and depth gauge set in the same cycle
- Selection of file stroke number and force applied
- Can sharpen any chain type from Pico to .404
- Energy efficient, can be battery operated

BENEFITS

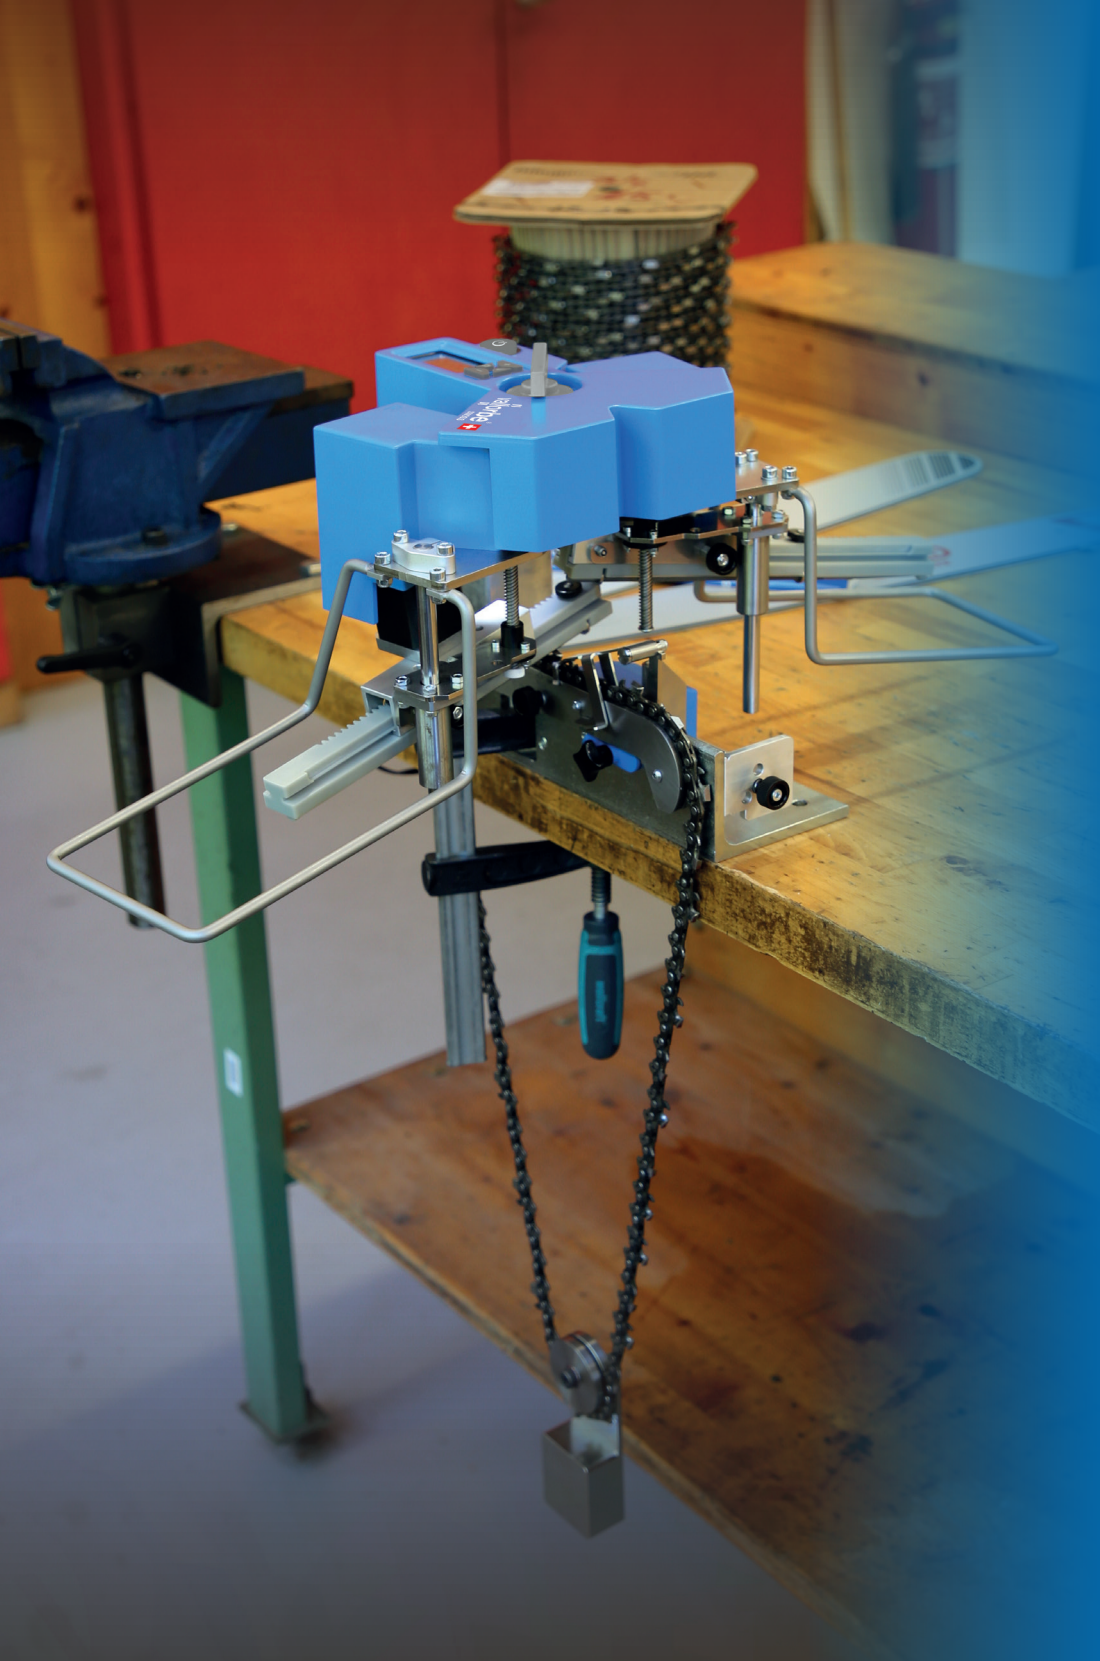

- Precise sharpening with correct angles, using round and flat files
- Quick payback for Professional logging companies and maintenance shops
- Very short set-up time and user friendly programming
- Files does not alter cutter performance, nor overheats
- Very affordable tooling cost
- No need for monitoring while operating
- Compact, transportable and easy maintenance
- No spark emission
